Paul Muniu

Data Scientist.

• Nairobi, Kenya • (254) 0795158835 • muniupauljr@gmail.com • linkedin.com/in/paul-muniu • github.com/PaulMuniu

PROFESSIONAL SUMMARY

An Innovative and analytical Data Scientist with strong technical expertise in delivering data-driven solutions to complex problems. Certified in Data Science from Moringa School, with advanced skills in Python, R, SQL, and machine learning. Adept at using statistical and data visualisation tools to extract actionable insights, optimise business processes, and improve decision-making. Passionate about leveraging data science to create scalable solutions for real-world challenges.

EDUCATION

Data Science Programme | View Accreditation

Moringa School | Feb 2024 - Nov 2024

- Completed 5 end-to-end data science projects
- Relevant Coursework: Machine Learning Algorithms, Artificial Intelligence, Data Visualisation, and Big Data Analytics.

Bachelor of Technology in Business Information Technology | View Accreditation

The Technical University of Kenya | Nairobi, Kenya | Aug 2018 - Dec 2022

- Achieved: Second-Class Honors, Upper Division.
- Relevant Coursework: Data Management Systems, Business Intelligence, Software and Web Development and IT Project Management.

SKILLS

Technical Skills

- Programming Languages: Python, R, SQL.
- Machine Learning and AI: Supervised and unsupervised learning, model building, feature engineering.
- Data Analysis and Statistical Tools: Excel, Pandas, NumPy and SciPy.
- Data Visualization: Tableau, Power BI, Matplotlib and Seaborn.
- Data Processing: Data cleaning, ETL pipelines, EDA.
- Google and Microsoft Office Suite (Advanced).
- Project Management Tools: Jira, Trello, Asana.

Soft and Interpersonal Skills

- Exceptional Communication skills, both written and verbal.
- Analytical thinking, Problem-solving- Solving
- Decision- Making and Initiative
- Time Management and Organisational Skills.
- Teamwork and Collaboration Skills.
- Resilience, Flexibility and Agility.
- Emotional Intelligence and a Growth mindset.
- Attention to Detail and Accuracy.
- Integrity and Ethical Behavior.

WORK EXPERIENCE

Customer Success Associate.

Kenya Commercial Bank | Kasarani Branch |Jul 2023 - Jun 2024 (Contract)

- Provided administrative and customer service support, managing about 20+ high-volume customer inquiries daily and resolving issues effectively.
- Analysed customer data to identify trends, informing sales strategies that resulted in a 15% increase in quarterly sales.
- Maintained accurate documentation and reporting, ensuring compliance with bank policies.

Industrial Attachment - IT Support.

Huduma Kenya - Ministry of Public Service and Human Capital Development | Aug 2022 - Dec 2022

- Enhanced data accuracy by 20% within three months through rigorous validation procedures and efficient data entry practices for government service applications.
- Resolved 95% of technical issues and improved customer satisfaction by leveraging the 'SERVICE BY APPOINTMENT' system to streamline service delivery.

Scrum Master – Housing Time Series Project | View.

Moringa School - Phase Four Project | Jul 2024

- Spearheaded team coordination and task delegation, resulting in successful milestone completion for the project.
- Delivered a compelling project presentation to non-technical stakeholders, showcasing complex data analytics concepts in an accessible manner.

VOLUNTEERING

Outliers Kenya |Aug 2019 - Present

Mentor | Nairobi, Kenya.

- Manage the organisation's social media page, creating engaging content to raise awareness and inspire support.
- Mentor children in underserved communities, focusing on personal development, education, and confidence building.
- Coordinate the collection and supply of surplus resources to children’s homes, hence impacting lives.

PROJECTS

Business Insights 360 | Excel, Power BI, Dax, Power Query, SQL | Live Dashboard | Oct 2024

- Modernised Atliq's reporting by replacing Excel with a Power BI dashboard, integrating data from Excel/CSV and SQL.
- Created a data model and visualisations across five departments, Optimising with DAX Studio for a 5% performance boost. This empowered Atliq to make data-driven decisions, projecting a 10% revenue increase and a 20% expense reduction.

Data Science Capstone Project: Data Crunch Application | GitHub | Aug 2024

- I developed a personalised food recipe recommendation system using data preprocessing, EDA, and machine learning techniques. By cleaning and merging datasets of over 2,000 recipes and 1,000 reviews. I utilised Python libraries like Pandas, Matplotlib, and Seaborn for data analysis and visualisation. The system was deployed using Streamlit, providing a user-friendly interface for food enthusiasts.

CERTIFICATIONS

- Data Science & Analytics | HP LIFE
- Data Cleaning | Kaggle
- Data-engineering-foundations | LinkedIn
- ICDL Certification | KCA University

Interests

- Reading, Coding, Art, Traveling and Community mentorship.
- Podcasting (Host of FPL Whizz Podcast)
- Current book reading: 'The Psychology of Money'

Key Achievements

- Awarded a Gold Standard by the former President for exemplary achievement – Community Development.
- Graduated from The ALX Virtual Assistant program, gaining strong organisational and communication skills | ALX Africa
